

AIG-101 Abstract

Course# / Title	Description / Course Objective
<p data-bbox="180 573 412 695">Apogee Insight Operations for New Users</p> <p data-bbox="180 747 464 894">Learn the basic operations of the system for day-to-day use through graphics.</p> <p data-bbox="180 978 380 1083">Recommended Prerequisites: None</p>	<p data-bbox="500 531 740 562">Course Objectives</p> <p data-bbox="500 573 1081 604">At the end of this unit you should be able to:</p> <ol data-bbox="548 646 1409 1570" style="list-style-type: none"><li data-bbox="548 646 1016 678">1. Log on and off of Apogee Insight<li data-bbox="548 730 1409 793">2. Manipulate the Main Menu and discuss applications important to class content<li data-bbox="548 846 1357 993">3. Identify the components of a point log. Run a point log for:<ul data-bbox="597 888 1255 993" style="list-style-type: none"><li data-bbox="597 888 740 919">- one point<li data-bbox="597 930 1049 961">- a group of points using wild cards<li data-bbox="597 972 1255 993">- points with specific characteristics and conditions<li data-bbox="548 1045 1336 1108">4. Command points using the point commander, and return commanded points to system control<li data-bbox="548 1161 1401 1192">5. Display dynamic graphics and command points from a graphic<li data-bbox="548 1245 1377 1308">6. Display alarms. View the System Activity Log to look at point alarm history<li data-bbox="548 1360 1369 1465">7. Drag a point alarm to the Commander to practice drag and drop. Command the point from the Commander<li data-bbox="548 1518 1390 1570">8. Display on-line documentation about selected topics covered in class
