

Siemens Industry Inc., Building Technologies Division Presentation Abstract

Control Strategies Affected by Changes to ASHRAE 90.1-2010 and 2013

Summary: The purpose of this presentation is to educate and assist the market with understanding some of the recent changes within ASHRAE 90.1-2010 and 2013. Those changes affect Building Automation Systems design. Some information is presented on how the ASHRAE standard fits into code adoption. It includes how changes to equipment standards affect controls, new control sequences adopted in the standard and some recommendations for best practices.

Target Audience: Consultants, Architects, ASHRAE, BOMA, USGBC

Time: 1 hr

CEU/PDH/USGBC: AIA/CES approved 1.0 LU which is 1.0 hour of General Learning Unit (conversion to CEU or PDH varies by state)

Materials: Slide Presentation

Description:

- Learn about the history leading up to the current standard
- Identify how equipment changes effect the controls
- Prepare for changes in controls specifications and sequences
- Understand suggestions for reaching new efficiency goals
